Verify the version of Microsoft Dynamics GP

The 2008 Payroll Year-End Update file and the 2009 Payroll Tax Update file will be available for Microsoft Dynamics GP 9.0 and for Microsoft Dynamics GP 10.0. The 2008 Payroll Year-End Update file and the 2009 Payroll Tax Update file will not be compatible with Microsoft Business Solutions - Great Plains 8.0 or with earlier versions.

Complete all pay runs for the current year

(Optional:) Complete all monthly and quarterly payroll period-end procedures for the current year

For more information about period-end procedures for payroll, view Chapter 21, "Payroll Company Routines," in the Microsoft Dynamics GP user's manual.

Make a backup of the original file

Create a backup, and then put this backup into safe, permanent storage. By creating a backup, you make sure that you have a permanent record of the company's financial position at the end of the year. You can restore the backup to quickly recover data if a power fluctuation or other problem occurs during the year-end closing procedure.

To create a backup in Microsoft Dynamics GP, follow these steps:

1. In Microsoft Dynamics GP 10.0, point to **Maintenance on the Microsoft Dynamics GP menu**, and then click **Backup**. In Microsoft Dynamics GP 9.0, click **Backup** on the **File** menu.

Note We recommend that you name this backup **2008 Pre Year-End Update** to differentiate it from your other backups.

Install the year-end update

To install the payroll year-end update, you must follow these steps on each computer that has Microsoft Dynamics GP installed.

When the update is released, install the update from one of the following locations, depending on whether you are a partner or a customer.
